1 of 1 review helpful Would have given 0 stars if possible By P Manley This is absolutely the worst textbook I ve ever

had to use and I'm middle aged and read a LOT of textbooks It is very badly written and difficult to read The author uses two or three pages to say what could have been easily condensed into two sentences and made much more sense Since this was an assigned book I had have no choice but to use it Career Information Career Counseling and Career Development is a comprehensive up to date text written by a leading expert in the field nbsp This new edition contains a stronger emphasis on technology and on cross cultural issues and has an increased emphasis on application As in previous editions career development theory career information car ldquo The text is internationally known as the lquo Bible rsquo of Career and Vocational Training Any enhancement to the text would be lquo icing rsquo on the cake rdquo Bill Bauer Marietta
