0 of 1 review helpful Five Stars By Classicist Fine This is a complete critical edition of Cicero s Cato Maior de Senectute On Old Age with an introduction and commentary The text is based on a fresh examination of the manuscript tradition while the introduction aims to place the work in the context of Cicero s writings on old age in the ancient world The Roman and Ciceronian qualities of the work are emphasized rather than the search for lost sources that occupied scholars in the past Matters of text language an the book is well indexed and organized its introduction is for all readers and the volume is well worth acquiring by any College library Elaine Fantham Classical World Language Notes Text English Latin
