0 of 1 review helpful Spectacular By Thomas F Glick Ilardi made the history of eyeglasses his life s work His careful

tracing of the commercialization of spectacles in Renaissance Florence will be the standard for years to come This book deals with the history of eyeglasses from their invention in Italy ca 1286 to the appearance of the telescope three centuries later By the end of the 16th century eyeglasses were as common in western central Europe as desktop computers are in western developed countries today Eyeglasses served an important technological function at both the intellectual practical level not only easing the textual studies of scholars but also easing the work of craftsmen Ilardi has produced the definitive history of spectacles aided in part by economic historians and others who over the decades sent him relevant records discovered in Florentine English and other European archives At a time when many historians of technology
