By James Morwood : The Plays of Euripides (Classical World) a basic level guide to some of the best known and loved works of prose poetry and drama from ancient greece medea by euripides herakles ancient greek herakles mainomenos also known as hercules furens is an athenian tragedy by euripides that was The Plays of Euripides

(Classical World):

Over the past decades there has been something of a revolution in the way we view classical drama generally and Euripides in particular. This book, updated in a second edition, reflects that revolution and aims to show how Euripides was continually reinventing himself. A truly Protean figure, he seems to set out on a new journey in each of his surviving 19 plays. Between general introduction and final summary, Morwood's chapters identify the themes that underlie them. Ever since its first appearance in 2002, Morwood's little book, readable, instructive, and cram-packed with sound scholarship and interesting aperçus, has been just about the best available introduction to Euripidean drama for sixth-former undergraduate and graduate students.
