By Wayne Visser : The Top 50 Sustainability Books jstor is a digital library of academic journals books and primary sources the 2016 architect 50 here are the top firms of the year see our firm directory The Top 50 Sustainability Books:

4 of 5 review helpful Bought this for a class By Katie I bought this book for a class but I think it s a waste of money I would never look at it if I hadn t had to have it for that class This collection is not a collection of full books or even excerpts from books It s just very short reviews of books I also don t feel like most of the books in this collection are very universally agreed on There are certainly some This unique title draws together in one volume some of the best thinking to date on the pressing social and environmental challenges we face as a society These are the Top 50

Sustainability Books as voted for by the University of Cambridge Programme for Sustainability Leadership's alumni network of over 3 000 senior leaders from around the world In addition to profiles of all 50 titles many of the authors share their most recent reflections on the state of the world a About the Author Wayne Visser is Founder and CEO of CSR International and the author editor of seven books including five on the role of business in society the most recent of which are Making a Difference VDM 2008 and The A to Z of Corporate Social
